PROTECT 2019 INSTRUCTIONS FOR MANUSCRIPT SUBMISSION

Please note that the exact PROTECT 2019 formatting scheme, provided in “PROTECT 2019 Manuscript Template”, must be used when preparing the full-length paper. This document can be downloaded directly from the PROTECT 2019 website. Also, please note the following important guidelines regarding the final manuscript submission for PROTECT 2019:

- Both the MS Word version (editable) and the PDF version of the paper must be uploaded on the conference website, upon submission, so a PDF-conversion of the word document is required before the online submission. It is highly recommended to check the final pdf-converted version of the paper before submission, for any possible formatting corruptions caused by the conversion process. The PDF file is considered “camera ready” and will show up in the proceedings as is.
- The naming of the submission files (both the “.doc” and “.docx” file and the “.pdf” file) must be composed of the word “Paper” followed by the Paper ID Number, which has been sent to you with the acceptance notification via email, an underscore, and the last name of the first author (e.g. **Paper123_Smith.pdf**). Please do NOT include any spaces in the file name.
- The submitted PDF must be press-ready to be directly published in the conference proceedings without further revisions. The maximum allowed size for the PDF file of the manuscript is 10Mb. The website will automatically reject submission of files larger than 10Mb in size.
- A copy of the “PROTECT 2019 Authorization to Publish” form is posted on the website. Please sign and submit this form with your full paper at the time of the online submission; an electronically signed document is acceptable, if it is properly signed using a certificated software.
- Information, templates, instructions, and forms regarding the manuscript submission can be accessed and downloaded directly from: <https://www.protect2019.com/submissions>
- Full-length manuscripts must be submitted electronically, directly on the website; email submissions are not accepted. Please visit the website at: www.PROTECT2019.com

Thank you for your cooperation. We are looking forward to welcoming you to PROTECT 2019 in September of 2019 in beautiful Whistler, British Columbia!
